Maybe even better than free.

Using file, you can circumvent those limits without paying to upgrade your team chat service. You can give this download link to your friends by mail orinstant messenger. File is free to use with no gotchas and no hidden fees. Our service is completely free for everyone. Alternatively you can choose to shareyour download links on blogs, forums and social networking sites. When you use file, you avoid storing the file you're sending in your cloud storage or mailserver. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. You don't need any special software installed to be able todownload your files. Just upload the file you want to share with your friends and we send you a download link to your file. Unfortunately, we can't make thatpart free. There are no restrictions on the number of times a file can be downloaded. Why pay storage fees for a file that you just wanted to send to a friend orcolleague? Also, many team chat apps have limits to the size of files that can be transferred within their apps. Simply upload your file and share the link. Anyfile in any format can be uploaded and downloaded for free. You decide who you want to share your files with. No account or credit card is required to getstarted. filehosting provides an easy possibility for you to send large files to your friends. Keep your files private, or send your download links only to friends orfamily. So try our free and simple filehosting service now. If only we could, we surely would! On the other hand, using file can actually save you money. Filescan be downloaded from any computer from our high speed servers. The cost of that data transfer is covered by your internet service or the data plan on yourphone. We have no file size limit. It is also allowed to link to the download page from websites and communities. You can upload any type of file (movies,music, documents, images, zip files and more). Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money indata storage fees. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between yourcomputer or phone and our servers, then from our servers to your friends device.
